

MUNICIPAL CORPORATION OF GREATER MUMBAI

DYONE/1086/524711. DT 17/6/2019

**Sub:-** Approval for Acceptance of Parking Layout proposal ONLINE for development proposal in MHADA Layout and other dept.of state/Central Govt.

As per earlier policy approved by the Competent Authority , this office is accepting Parking Layout approval proposal & streetlight remarks application manually& issuing NOC/ Remarks by dispatch for the development of plots in MHADA Layout, State /Central Govt. Plots till development of Software.

Further as per information /note received recently from Ch.Eng.(DP) that the patch " One Project" has been made live in the AutoDCR system since 15.02.2019 wherein Architect has to create project before submitting the proposal to the building Proposal department and through this project ,Architect can apply for NOC's from various intrnal departments of MCGM as well as external agencies, without submitting the proposal to the building Proposal dept. Hence the Architect now can obtain Parking Layout NOC & Street Light remarks ONLINE for the projects submitted to MHADA , SRA & external planning Authority through "One Project" in Auto DCR system.

In view of the development of the above said patch " One Project" in AutoDCR system, now this office will not accept the Parking Layout proposals & Street light remarks application manually through dispatch from the Architect /L.S with immediate effect.
